

APOLLO R

FULL SYNTHETIC RACING
ENGINE OIL

Description

The Apollo R line is our topline of engine oils. Apollo R products are developed for race engines, for on- and off-track racing. These oils provide an extremely rapid and stable lubricant film at cold start and maintain their strong lubricating film even when the engine is stressed to its limits. Apollo R Line has been tested extensively in the field and is designed to generate maximum horsepower and ultimate protection of the engine under extreme circumstances. Next to the Apollo R engine oils we have also introduced racing gear oils, racing brake fluids and racing oils for the motorcycles. All under the name 'R'.

Benefits

- Excellent thermal- and oxidation stability.
- Very good dispersant and detergent properties.
- Excellent protection against wear, corrosion and foam.
- Suited for extreme and severe conditions.

Performance levels

- API SN/CF
- ACEA A3/B4
